

Business Sector: Transport

Date of award: 21/02/2020

Project Country - ID-Name: Moldova – 45094 – Moldova Road Rehabilitation IV

Tender and lot number(s):

Lot 1: Rehabilitation works on R34 Hincesti-Leova-Cahul-Giurgiulesti Road, km 0+000 - km 42+200 and

Lot 2: Rehabilitation works on R34 Hincesti-Leova-Cahul-Giurgiulesti Road, km 42+200 -km 83+000.

Duration of the contract awarded:

915 days from the Commencement Date.

Defects Notification Period: 365 days.

Summary scope of contract awarded:

Republican Road 34 runs from west of Hincesti where it branches off the R33 via Leova, Cantemir and Cahul to Slobozia Mare where it meets the M3 north of Giurgiulesti port. It has a length of 167.6 km and runs in a south south-west direction as far as Cantemir from where it continues due south to Slobozia Mare. The works are divided into two lots which are to be performed concurrently and comprise:

Lot 1: The contract section has a length of about 42.2 km from Hincesti to the Cazangic village. The existing road is mainly a two (2)-lane, one carriageway, paved road. The rehabilitation is expected to follow the existing road alignment, with the possible exception of limited realignments to improve geometric characteristics, eliminate safety hazards, or avoid areas subject to severe soil erosion. Slight realignment is foreseen to improve the road safety at the hairpin section at km 0+786 – km 2+487, km 3+310 – km 3+970 and km 17+840 – km 18+398, including the construction of a climbing lane according to the drawings. The main intersections will be reconstructed as roundabouts to improve road safety. Rehabilitation includes reconstruction of road pavement, demolishing and construction of culverts, construction of drainage facilities, relocation of utility lines as required and also defined in the Drawings, Specifications and Bill of Quantities. Section wise cold recycling or new construction have to be applied depending on the existing road alignment and the parameters to be achieved for the rehabilitated road. Road safety devices like single metal guardrails at the road edges, marking and signing, bus-bays, pedestrian crossing facilities, traffic lights, sidewalks etc. have to be provided.

Lot 2: The contract section has a length of about 40.7 km from Cazangic village to Cantemir town. The existing road is mainly a two (2)-lane, one carriageway, paved road. The rehabilitation work is expected to follow the existing road alignment, with the possible exception of limited realignments to improve geometric characteristics, eliminate safety hazards, or avoid areas subject to severe soil erosion. Slight realignment is foreseen to improve the road safety at the hairpin section at km 56+138 – km 56+721 and km 69+788 – km 72+215 including the construction of a climbing lane according to the drawings. The main intersections will be reconstructed as roundabouts for road safety improvement. Rehabilitation includes reconstruction of road pavement, demolishing and construction of culverts, construction of drainage facilities, relocation of utility lines as required and also defined in the Drawings, Specifications and Bill of Quantities. Section wise cold recycling or new construction have to be applied depending on the existing road alignment and the parameters to be achieved for the rehabilitated road. Road safety devices like single metal guardrails at the road edges, marking and signing, bus-bays, pedestrian crossing facilities, traffic lights, sidewalks etc. have to be provided.

Name of Tenderer(s) and Tender prices as read out at Tender Opening:
