The discounts offered and the methodology for their application are:	<p>Lot 1 Discount for Lot 1: In case we will be awarded the works contract for the Lot 1 we make a discount of 5% (five percent) from the amount included in our Financial Offer. The discount will be applied proportionally to all BoQ Items without the Provisional Sums for Contingencies. The explanation for that discount is that we envisage to better manage our administrative expenditures, so that the remaining amount to satisfy our needs.</p> <p>Discount for a combination of Lot1 plus Lot2: In case that both will be awarded to the JV "Ingstroy and Partners", we make a discount of 7% (seven percent) from the accumulated value of both lots, without considering the discount for each lot. The discount will be applied proportionally to all BoQ Items without the Provisional Sums for Contingencies. The explanation for this discount is that the bigger scale of our contract, in case we will be awarded both lots, will allow the Joint Venture to better manage, operate and administrate the resources, especially manpower, equipment and vehicles. This will allow for a continue use of the resources and will reduce the mobilisation, demobilisation costs and the employment costs.</p>
